Re: **Loestrin 20**

(norethisterone acetate 1mg, ethinylestradiol 0.02mg per tablet; PL 27827/0023)

Loestrin 30

(norethisterone acetate 1.5mg, ethinylestradiol 0.03mg per tablet; PL 27827/0024)

To whom it may concern:

Regrettably, despite endeavours to resolve issues experienced by our contracted manufacturer of our licensed products, Loestrin 20 and Loestrin 30, as well as our efforts to identify an alternative manufacturer, Galen wish to advise both products are being discontinued.

For reasons of confidentiality we cannot comment on the manufacturer or on their issues.

We apologise for the inconvenience caused to patients and healthcare professionals.

Yours sincerely,

Ken Ross

Vice-President of Commercial Operations

MAT-LOEST-UK-000002
